

Civilization planning  
for worldwide wealth  
and an  
unlimited future

Worldwide wealth and a limitless future are possible. There are only mental barriers to overcome, that influence man, science, politics, economics - our civilization in all their actions.

Paradigm	Neoliberalism	Limitism	Infinitism
Textbook	?	The Limits to Growth	Calculation ERROR
Central idea	The perfect market solves all problems	Save Restrict Refrain	Worldwide wealth and a limitless future are possible
Philosophy	It is cheaper to succumb than to survive	Man is a pest	Mankind has the task to obtain life on Earth for a very long time
Science	Economics	The ecological footprint	Ethics - the science of survival
Politics	Mainstream parties to neoliberalism	The Greens	WWF movement WorldWide Wealth 
Economy	Change nothing! Preservation of old industry.	Prevent everything! It could grow and grow...	BB21C - Biggest Business 21st Century

Half century ago, we have seen here the future full of optimism. What immense technical progress did we reach during the last half century. Each modern smartphone would have been seen on the set of Star Trek 1965 as the super technology of the 24th century.

But what has become of our life circumstances? The once successful social market economy degenerated into “The perfect market solves all problems, just watch” 1972 saw another new World View “The Limits to

Growth, Save Restrict Refrain.“ The one want to change nothing, everything should remain the same, the others want to thwart everything.

This coincidence of intentions makes this at the first glance such contrasting views to perfect allies when it comes to stagnation and decline.

What do you get when the one sees man only as a participant in the perfect market and the other even regarded man as a pest?

A society that has no future, which remains with "We're still better than the neighbors" in a constant deterioration.

## **Infinitism - in development since autumn 1991**

In retrospect, infinitism started autumn 1991. The project “GEMINI inhabited solar power plant” and the term “PEGE - Planetary Engineering Group Earth” for civilization-planning does not match with any of the former paradigms, this was the origin of the Infinitism.

The combined effect of the prevailing worldviews leads to self-destruction, this has been proven in the past decades.

If you want to evolve in the direction of worldwide wealth and a limitless future, you buy the book, support us! Donations to:
